HIGH COMMISSION OF INDIA
Wellington, New Zealand

Advisory

As part of its efforts to extend its outreach to Indian students studying abroad, Government of India has added a specific student module to its Consular Grievances Monitoring System (MADAD). The home page link of the MADAD [\[https://portal1.madad.gov.in/AppConsular/welcomeLink\]](https://portal1.madad.gov.in/AppConsular/welcomeLink) provides basic guidance on how students can first register themselves on this module and then proceed to providing basic information. This information will help the concerned Indian Embassies/High Commissions to engage effectively with the students and render them all possible assistance.

Data entered in this module can be accessed and used exclusively only by Indian Missions and Ministry of External Affairs. High Commission of India would encourage all Indian students in New Zealand to register them and provide basic information through this platform.
